Description

Quick filter machine for locations with connection to the water supply. Delivered with 2 decanters and 1 stainless steel filter pans. Model with 1 brewing system and 2 hot plates.

Strong points

- Delicious, fresh filter coffee
- High-quality stainless steel combined with black accents give the machine a modern appearance
- Thanks to the connection to the water mains, the machine is automatically filled with water
- Consistent quality of the coffee because of the exact water measurement
- Self-regulating hot plates to preserve the optimum quality of the coffee
- Signals indicate when the coffee is ready and when the machine needs descaling
